

Amendments To The Specification

Please amend the paragraph at page 24, lines 8 to 15 as follows:

In the embodiments where ~~mobile client annotation device~~ 401 is a wireless device, wireless tower 403 may be used to interconnect between annotation device 401 and communication network 410. Annotation device 401 may comprise a “smart” device configured with adequate processing power and memory to handle the requirements of the present invention. For example, if annotation device 401 comprises a smart mobile client, ~~annotation~~ device 401 should have the computation power to perform the annotating functions described in Figure 5 in addition to the control functions 502 for playback of the original document.
